Re: July 19th COVID Changes

As you know, from next Monday, 19th July, the COVID rules regarding wearing face masks and the opening of all venues has changed. However, the guidelines and medical advice regarding wearing face masks, washing hands more often, social distancing and self-isolating, remain very much in place, to help us all manage and take personal responsibility to control the pandemic.

The teams at ABC and EFG's are committed to keeping our childcare provision a safe place. Consequently, all our current virus control policies and protocols will remain in place to protect children, parents and staff from the risk of COVID 19.

Therefore, we ask that parents continue to wear face masks and socially distance on nursery premises and our current drop off and collection procedure will remain in place until further notice. We look forward to being able to welcome parents back into the building proper, in the future.

In the meantime, we wish all our term-time only children, a lovely summer break, while our remaining children enjoy lots of fun and summer activities ...even the weather looks like summer has truly arrived!

To our Foundation Stage children leaving us this term, to start full-time big school, we wish them and their families, our very best wishes and tons of love for the next step in your education. We will miss you.

Finally, thank you to all our parents for your continued support throughout these challenging times, it has been very much appreciated.

Kind regards,

Di Bangali
Director

"Looking for reliable, quality childcare is now as easy as ABC!"
